

Mutahhar BM - Full-Stack Engineer

mutahharbinmuzaffar@gmail.com | +92 301 2498730 | linkedin.com/in/mutahhar-bin-muzaffar | github.com/bmutahhar

Summary

Full-Stack Engineer with 5+ years of experience building web products with JavaScript/TypeScript, Next.js, and Node.js. Brings 3+ years of Python scripting experience from freelance automation work and hands-on delivery of large React-to-Next.js migrations.

Experience

Senior Software Engineer

Jul 2023 – Present

ImagineArt - Vyro.ai

Islamabad, Pakistan

- Increased product adoption by leading **Workflows** from ideation to MVP and architecting a unified React Flow canvas for text, image, and video generation.
- Increased team delivery capacity by onboarding and mentoring 4–5 engineers and setting implementation standards for real-time node orchestration.
- Increased rollout efficiency by 60% and reduced access-update overhead by 35% by implementing Firebase Remote Config feature gating, contributing to 20% subscription growth.
- Led migration of a large React application surface to Next.js, improving long-term maintainability and enabling faster feature delivery on a modern TypeScript stack.
- Owned end-to-end delivery of the company blog using Next.js and Strapi CMS, improving content delivery reliability.

Full Stack Developer

Mar 2022 – Mar 2025

Engiselle

Singapore

- Increased transaction volume by **20%** by delivering production eCommerce products for online pharmacy and home-repair marketplaces.
- Improved data-layer reliability by owning PostgreSQL-backed workflows and implementing ORM layers with Sequelize and Prisma for eCommerce and LMS products.
- Improved production stability and secure team access by deploying backend services on AWS EC2, managing PostgreSQL on Amazon RDS, and configuring S3/IAM controls.
- Increased user engagement by **35%** by implementing real-time event notification workflows with Socket.io.
- Automated recurring operational workflows with Python scripting across freelance and product contexts, reducing repetitive manual work.

Software Engineer

Jun 2022 – Jun 2023

DevsInc

Islamabad, Pakistan

- Improved care-team workflow coverage by shipping healthcare product features with React, Material UI, scheduling workflows, and Twilio video integrations.
- Improved API flexibility and frontend-backend delivery speed by implementing GraphQL queries and mutations across a React frontend and NestJS backend for VeVe.
- Expanded mobile product reach by contributing React Native and Expo features that extended core VeVe workflows to cross-platform app experiences.
- Reduced load time by **40%**, accelerated release cycles by **20%**, and reduced support tickets by **30%** by improving UX architecture and resolving 50+ production issues.

Software Engineer

Oct 2021 – Jun 2022

Pakistan Air Force

Islamabad, Pakistan

- Reduced deployment time by **50%** while supporting **99.9%** uptime by conducting 10+ feasibility studies and deploying 20+ Dockerized services on Kubernetes.

Education

Bachelor of Computer Science

2021

COMSATS University, Islamabad

CGPA: 3.73/4.00

Skills

Languages: JavaScript, TypeScript, Python, HTML, CSS/SCSS

Frontend/Mobile: React, Next.js, React Native, Expo, Tailwind CSS, ShadCN, Radix UI, Redux, Zustand

Backend/Data/Infra: Node.js, Express.js, NestJS, GraphQL, PostgreSQL, Prisma, Sequelize, Firebase, AWS (EC2, RDS, S3, IAM), Socket.io, Docker, Kubernetes, Strapi CMS

Product/Delivery: Full-Stack Development, eCommerce Workflows, AI Product Features, Performance Optimization, System Design, Scalable UI Patterns, Cross-Functional Delivery, Jest, Git, REST APIs
