

Mutahhar BM - Senior Frontend Engineer

mutahharbinmuzaffar@gmail.com | +92 301 2498730 | linkedin.com/in/mutahhar-bin-muzaffar | github.com/bmutahhar

Summary

Senior Frontend Engineer with 5+ years of experience shipping scalable React and TypeScript products, with hands-on ownership of architecture, testing quality, and cross-functional delivery in remote teams.

Experience

Senior Frontend Engineer

ImagineArt - Vyro.ai

Jul 2023 – Present

Islamabad, Pakistan

- Founding engineer for **Workflows**; led delivery from ideation to MVP launch and defined architecture for a unified React Flow canvas across text, image, and video generation.
- Scaled Workflows execution after launch by onboarding and mentoring a team of 4–5 engineers, establishing implementation direction for complex real-time node orchestration.
- Set up Git-based team workflows and maintained a Vercel CI/CD pipeline for microfrontend releases, improving release consistency across independently deployed frontend modules.
- Worked with backend teams on CORS and Authorization header handling across dev, staging, and production, resolving environment-specific API failures and improving frontend integration reliability.
- Built subscription-based feature gating with Firebase Remote Config for real-time rollouts, improving rollout efficiency by 60% and reducing access update overhead by 35%, contributing to 20% subscription growth.
- Partnered with product and design stakeholders to scope complex features into predictable delivery milestones across distributed teams.

Full Stack Developer

Engiselle

Mar 2022 – Mar 2025

Singapore

- Delivered production eCommerce products, including an online pharmacy and home-repair platform, increasing transaction volume by **20%**.
- Set up and deployed backend services on AWS EC2 and managed PostgreSQL on Amazon RDS to support production reliability and day-to-day operations.
- Configured Amazon S3 bucket policies and AWS IAM access controls to enforce secure team access to shared production resources.
- Implemented real-time event notification workflows with Socket.io, increasing user engagement by **35%**.

Software Engineer

DevsInc

Jun 2022 – Jun 2023

Islamabad, Pakistan

- Built and shipped a healthcare provider dashboard using React, Material UI, scheduling workflows, and Twilio video integrations.
- Implemented unit tests for frontend components and feature workflows using Jest and React Testing Library (RTL), improving release confidence and regression safety.
- Improved dashboard UX and query performance, reducing load time by **40%** and accelerating feature releases by **20%**.
- Resolved 50+ production issues and improved marketplace UX with React and TypeScript, reducing support tickets by **30%**.

Software Engineer

Pakistan Air Force

Oct 2021 – Jun 2022

Islamabad, Pakistan

- Conducted 10+ feasibility studies in an R&D team and developed geospatial interfaces with Mapbox; deployed 20+ Docker images on local Kubernetes, reducing deployment time by **50%** while supporting **99.9%** uptime.

Education

Bachelor of Computer Science

COMSATS University, Islamabad

2021

CGPA: 3.73/4.00

Skills

Languages: JavaScript, TypeScript, HTML, CSS/SCSS

Frontend: React, Next.js, Redux, Tailwind CSS, Microfrontend Architecture

Backend/Infra: Node.js, NestJS, Firebase, Docker, Kubernetes, AWS (EC2, RDS, S3, IAM)

Quality/Delivery: Jest, React Testing Library, CI/CD (Vercel), Git, REST APIs
