Summary

Software Engineer with 5+ years of full-stack experience building and scaling products across AI, eCommerce, and SaaS. Works across web and mobile using TypeScript, React, Node.js, GraphQL, and PostgreSQL.

Experience

Senior Software Engineer

ImagineArt - *Vyro.ai*

Jul 2023 – Present

Islamabad, Pakistan

- Increased product adoption by leading **Workflows** from ideation to MVP and architecting a unified React Flow canvas for text, image, and video generation.
- Increased team delivery capacity by onboarding and mentoring 4–5 engineers and setting implementation standards for real-time node orchestration.
- Increased rollout efficiency by 60% and reduced access-update overhead by 35% by implementing Firebase Remote Config feature gating, contributing to 20% subscription growth.
- Improved content delivery reliability by owning end-to-end delivery of the company blog using Next.js and Strapi CMS.

Full Stack Developer

Engiselle

Mar 2022 – Mar 2025

Singapore

- Increased transaction volume by **20%** by delivering production eCommerce products for online pharmacy and home-repair marketplaces.
- Improved data-layer reliability by owning PostgreSQL-backed workflows and implementing ORM layers with Sequelize and Prisma for eCommerce and LMS products.
- Improved production stability and secure team access by deploying backend services on AWS EC2, managing PostgreSQL on Amazon RDS, and configuring S3 bucket policies and IAM controls.
- Increased user engagement by **35%** by implementing real-time event notification workflows with Socket.io.

Software Engineer

DevsInc

Jun 2022 – Jun 2023

Islamabad, Pakistan

- Improved care-team workflow coverage by shipping healthcare product features with React, Material UI, scheduling workflows, and Twilio video integrations.
- Improved API flexibility and frontend-backend delivery speed by implementing GraphQL queries and mutations across a React frontend and NestJS backend for VeVe.
- Expanded mobile product reach by contributing React Native and Expo features that extended core VeVe workflows to cross-platform app experiences.
- Reduced load time by **40%**, accelerated release cycles by **20%**, and reduced support tickets by **30%** by improving UX architecture and resolving 50+ production issues.

Software Engineer

Pakistan Air Force

Oct 2021 – Jun 2022

Islamabad, Pakistan

- Reduced deployment time by **50%** while supporting **99.9%** uptime by conducting 10+ feasibility studies and deploying 20+ Dockerized services on Kubernetes.

Education

Bachelor of Computer Science

COMSATS University, Islamabad

2021

CGPA: 3.73/4.00

Skills

Languages: JavaScript, TypeScript, HTML, CSS/SCSS

Frontend/Mobile: React, Next.js, React Native, Expo, Tailwind CSS, ShadCN, Radix UI, Redux, Zustand

Backend/Data/Infra: Node.js, Express.js, NestJS, GraphQL, PostgreSQL, Prisma, Sequelize, Firebase, AWS (EC2, RDS, S3, IAM), Socket.io, Docker, Kubernetes, Strapi CMS

Product/Delivery: Full-Stack Development, eCommerce Workflows, AI Product Features, Performance Optimization, System Design, Scalable UI Patterns, Cross-Functional Delivery, Jest, Git, REST APIs
