

# Mutahhar BM - Software Engineer

mutahharbinmuzaffar@gmail.com | +92 301 2498730 | linkedin.com/in/mutahhar-bin-muzaffar | github.com/bmutahhar

## Summary

Software Engineer with 5+ years of full-stack experience building and scaling products across AI, eCommerce, and SaaS. Works across web and mobile using TypeScript, React, Node.js, GraphQL, and PostgreSQL.

## Experience

### Senior Software Engineer

*ImagineArt - Vyro.ai*

Jul 2023 – Present

Islamabad, Pakistan

- Led **Workflows** from ideation to MVP and architected a unified React Flow canvas for text, image, and video generation, driving production adoption.
- Scaled delivery after launch by onboarding and mentoring 4–5 engineers and setting implementation standards for real-time node orchestration.
- Improved monetization rollouts by implementing Firebase Remote Config feature gating, increasing rollout efficiency by 60%, reducing access-update overhead by 35%, and contributing to 20% subscription growth.
- Owned end-to-end delivery of the company blog with Next.js and Strapi CMS, establishing a scalable and maintainable publishing workflow.

### Full Stack Developer

*Engiselle*

Mar 2022 – Mar 2025

Singapore

- Delivered production eCommerce products for online pharmacy and home-repair marketplaces, increasing transaction volume by **20%**.
- Owned PostgreSQL-backed data workflows for eCommerce and LMS products, writing production queries and implementing ORM layers with Sequelize and Prisma.
- Deployed backend services on AWS EC2 and managed PostgreSQL on Amazon RDS; configured Amazon S3 bucket policies and IAM access controls for secure team usage.
- Implemented real-time event notification workflows with Socket.io, increasing user engagement by **35%**.

### Software Engineer

*DevsInc*

Jun 2022 – Jun 2023

Islamabad, Pakistan

- Built and shipped healthcare product features using React, Material UI, scheduling workflows, and Twilio video integrations.
- Built and integrated GraphQL features for the VeVe project by implementing queries and mutations across a React frontend and NestJS backend.
- Contributed to VeVe's mobile app using React Native and Expo to extend core product workflows to cross-platform experiences.
- Improved UX architecture and query performance (40% faster load time, 20% faster release cycles) and resolved 50+ production issues, reducing support tickets by 30%.

### Software Engineer

*Pakistan Air Force*

Oct 2021 – Jun 2022

Islamabad, Pakistan

- Conducted 10+ feasibility studies and deployed 20+ Dockerized services on Kubernetes, reducing deployment time by **50%** while supporting **99.9%** uptime.

## Education

### Bachelor of Computer Science

COMSATS University, Islamabad

2021

CGPA: 3.73/4.00

## Skills

**Languages:** JavaScript, TypeScript, HTML, CSS/SCSS

**Frontend/Mobile:** React, Next.js, React Native, Expo, Tailwind CSS, ShadCN, Radix UI, Redux, Zustand

**Backend/Data/Infra:** Node.js, Express.js, NestJS, GraphQL, PostgreSQL, Prisma, Sequelize, Firebase, AWS (EC2, RDS, S3, IAM), Socket.io, Docker, Kubernetes, Strapi CMS

**Product/Delivery:** Full-Stack Development, eCommerce Workflows, AI Product Features, Performance Optimization, System Design, Scalable UI Patterns, Cross-Functional Delivery, Jest, Git, REST APIs
